

# Contents of Volume 62

## Number 1–2

### Special Issue honouring Professor David Okrent

- 1 Dedication  
G. E. APOSTOLAKIS & W. E. KASTENBERG (USA)
- 3 Professor David Okrent: biographical notes
- 5 How safe is safe enough?  
J. F. AHEARNE (USA)
- 9 Commentary on Professor Okrent's ACRS activities  
R. P. SAVIO (USA)
- 11 Use of the *Safety Monitor* in operational decision-making at a nuclear generating facility  
S. H. CHIEN, T. G. HOOK & R. J. LEE (USA)
- 17 A fast method of finding minimal cutsets in a risk monitor  
K. KIM & S.-H. HAN (Korea)
- 23 The use of prime implicants in dependability analysis of software controlled systems  
M. YAU, G. APOSTOLAKIS & S. GUARRO (USA)
- 33 Probabilistic safety assessment in Canada  
Y. ZENG, P. WEBSTER & P. HESSEL (Canada)
- 43 The EBR-II Probabilistic Risk Assessment: lessons learned regarding passive safety  
D. J. HILL, W. A. RAGLAND & J. ROGLANS (USA)
- 51 Application of the risk oriented accident analysis methodology (ROAAM) to severe accident management in the AP600 advanced light water reactor  
J. H. SCOBEL, T. G. THEOFANOUS & S. W. SORRELL (USA)
- 59 Reactor cavity flooding as an accident management strategy  
I. CATTON & W. E. KASTENBERG (USA)
- 71 Current status of methodologies for seismic probabilistic safety analysis  
R. J. BUDNITZ (USA)
- 89 Bayesian parameter estimation in probabilistic risk assessment  
N. O. SIU & D. L. KELLY (USA)
- 117 On uncertainty in remediation analysis: variance propagation from subsurface transport to exposure modeling  
D. H. BENNETT, A. L. JAMES, T. E. MCKONE & C. M. OLDENBURG (USA)

- 131 On using residual risk to assess the cost effectiveness and health protectiveness of remedy selection at superfund sites  
P. T. KATSUMATA & W. E. KASTENBERG (USA)
- 153 Calendar

**Volume 62 Number 3 1998****Special Issue—Seismic PSA for NPP Safety Design and Assessment**

- 155 Editorial  
S. KONDO & K. MURAMATSU (Japan)
- 157 Design basis earthquakes for critical industrial facilities and their characteristics, and the Southern Hyogo prefecture earthquake, 17 January 1995  
H. SHIBATA (Japan)
- 171 Issues related to structural aging in probabilistic risk assessment of nuclear power plants  
B. R. ELLINGWOOD (USA)
- 185 Survey of seismic fragilities used in PRA studies of nuclear power plants  
Y. J. PARK, C. H. HOFMAYER & N. C. CHOKSHI (USA)
- 197 Seismic response and fragility evaluation for an Eastern US NPP including soil-structure interaction effects  
D. M. GHIOCEL, P. R. WILSON, G. G. THOMAS & J. D. STEVENSON (USA)
- 215 Seismic fragility analysis for non-seismically qualified steel structure  
K.-H. HWANG & S.-K. KANG (South Korea), W. H. TONG & P. J. RIECK (USA)
- 221 Study of rationalized safety design based on the seismic PSA for an LMFBR  
R. NAKAI & A. YAMAGUCHI (Japan)
- 235 Reliability assessment and design load factors for reinforced concrete containment structures  
B. K. HAN (South Korea)
- 241 Evaluation method of seismic isolation effect in siting of a nuclear facility  
M. TAKEDA, Y. OHKAWA & Y. AKUTSU (Japan)
- 251 Development of systems reliability analysis code SECOM-2 for seismic PSA  
T. OIKAWA, M. KONDO, Y. MIZUNO, Y. WATANABE, H. FUKUOKA & K. MURAMATSU (Japan)
- 273 Calendar
- 275 Contents of Volume 62
